

PLASTIC TRENDS
Quality Fittings By Design

Fabricated C900-C950 Fittings Standards Compliance

Plastic Trends fabricated C900-C905 fittings up to 36" diameter are manufactured in compliance with CSA B137.3-99 and AWWA C900 and AWWA C905. They are tested and certified by Intertek ELT SEMKO to CSA B137.3-99.

All Plastic Trends fabricated gasketed C900-C905 fittings use the Rieber gasket system, ensuring a tight and reliable seal.

All Plastic Trends fabricated C900-C905 fittings use pipe that meets the requirements of CSA B137.3-99. This pipe also meets the requirements of AWWA C900-C905, NSF 61, ULC and FM.

Third party test reports of Plastic Trends fabricated C900-C905 fittings are available upon request.
